

## **Your Upgrade to the New CreditXpert**

Hello,

Wayfinder and What-if Simulator, the credit optimization tools you currently use, are getting an upgrade and getting replaced by the new CreditXpert! We are working with CreditXpert and preparing to welcome you onto the new platform soon! The new CreditXpert takes everything you love about Wayfinder and What-if Simulator and makes it way better and easier to optimize credit so you can qualify more applicants, make more compelling offers and close more loans.

### **When will the upgrade happen?**

The transition is scheduled to be completed soon. You will receive an email invitation to the new platform shortly.

### **What's changing?**

The upgraded CreditXpert platform will be separated from our credit reporting partner and requires separate logins. Plans will also be ran and customized independently by users, rather than through our credit reporting partner.

### **What do I need to do?**

Join CreditXpert for a live training session to get familiar with the new features. Reserve your spot [here](#).

We are excited for you to get started on the new platform!

Regards,
